**Sedimentary
Geology**

Contents Volume 124, 1999

Special Issue:

ADVANCED TECHNIQUES IN PROVENANCE ANALYSIS OF SEDIMENTARY ROCKS

Edited by H. BAHLBURG and P.A. FLOYD

Preface

H. Bahlburg and P.A. Floyd 1

Distinct Methods of Provenance Research

Processes controlling the composition of heavy mineral assemblages in sandstones

A.C. Morton and C.R. Hallsworth 3

Present status and future avenues of source region discrimination and characterization using fission track analysis

A. Carter 31

Tracing provenance through the isotope ages of littoral and sedimentary detrital zircon, eastern Australia

K.N. Sircombe 47

Mass transfer from the Alps to the Apennines: volumetric constraints in the provenance study of the Macigno–Modino source–basin system, Chattian–Aquitania, northwestern Italy

A. Di Giulio 69

Methods to Problems of Provenance

Provenance of Cretaceous synorogenic sandstones in the Eastern Alps: constraints from framework petrography, heavy mineral analysis and mineral chemistry

H. von Eynatten and R. Gaupp 81

Characterization, provenance, and tectonic setting of Fig Tree greywackes from the Archaean Barberton Greenstone Belt, South Africa

T. Toulkeridis, N. Clauer, A. Kröner, T. Reimer and W. Todt 113

U–Pb ages and geochemistry of granite pebbles from the Devonian Menaver Conglomerate, Lizard peninsula: provenance of Rhenohercynian flysch of SW England

W. Dörr, P.A. Floyd and B.E. Leveridge 131

Specific Analytical Methods

Heavy-mineral analysis and clinopyroxene geochemistry applied to provenance analysis of lithic sandstones from the Azuero–Soná Complex (NW Panama)

H. Krawinkel, S. Wozazek, J. Krawinkel and W. Hellmann 149

Integrated analyses constraining the provenance of sandstones, a case study: the Section Peak Formation (Beacon Supergroup, Antarctica)

A. Di Giulio, R. Tribuzio, A. Ceriani and M.P. Riccardi 169

Rare earth elements in chert clasts as provenance indicators in the Ordovician and Silurian of the Southern Uplands of Scotland A.W. Owen, H.A. Armstrong and J.D. Floyd	185
Chemostratigraphy: a method to improve interwell correlation in barren sequences — a case study using onshore Duckmantian/Stephanian sequences (West Midlands, U.K.) T.J. Pearce, B.M. Besly, D.S. Wray and D.K. Wright	197
<i>Author Index Volume 124, 1999</i>	221
